APP Payments and Shadow Billing this quarter

FFS Billings this quarter

Panel size expectation for 1.0 FTE physicians in your community cluster

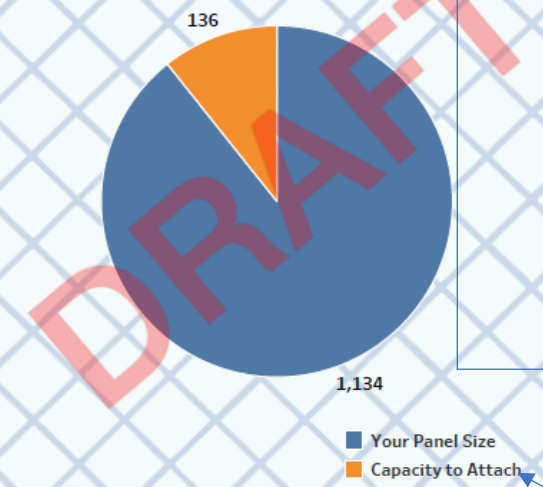

## APP Threshold Billings

Your status for FY 2021-22 Q4: **Green**  
Your YTD Shadow Billings for 2021-22: **\$125,890.47**

## Panel Size

Community Target Panel: 1,270  
Your Calculated Panel: 1,134  
Your Target Panel (based on FTE): 1,270  
NFPR Patient Count: 537

Your current estimated panel size based on ME=CARE codes – we know that this # is inaccurate!!!! See disclaimer

Your expected panel size adjusted for your FTE

# of unattached patients in your community cluster

Total shadow billing for previous complete FY

Shadow billing over last four quarters – colour based on performance against contract threshold

Disclaimer: The panel size quadrant is a representation of the intent. Though the target panel sizes and NFPR data are accurate, "Your Calculated Panel" is not. We are working to address gaps in the data to get better panel estimates to try to maximize accuracy before we discuss with you more. More to follow.

Difference between the number of people on your panel and the expected panel size
